Person ID	Problem	App/Website found [name]/None	Likes	Don't likes	Improvements
1	Trouble with building habits	Streak App	1. The app sends notifications multiple times a day. 2. Users can share their streaks/tasks with others, allowing them to join in and participate in the same activity. 3. The app also integrates with the Shortcuts app on the iPhone. When the user completes a task, they have the option to open a specific app as a reward. For instance, they can open the music app and listen to the music.	1. To use the app, payment of $4.99 is required. 2. There are no free trials or web version available.	1. The user interface was very simple. 2. There were no instructional video to guide users on how to use the app, so it would be helpful to provide a tutorial. 3. Additionally, there is no website version available.
2	Keep track of work hours	Hours Tracker App	1. Employees can record their work hours by clocking in at their workplace using the app.	1. A free of only 21-day trial to track up to 3 jobs. 2. The personal plan costs $8.99 allows for up to 5	1. website to check the work hours. 2. Cheaper plans.

			2. The job entry system also has location awareness functionality. If a person is working at multiple jobs, they can clock in, and the hours will be logged for the specific work location.	jobs and unlimited entries. 3. The Pro Edition costs $14.99 and offers unlimited jobs.	
3	Digital Journaling	Day One App	1. Able to record texts and photos. 2. Tag people, time, and location. 3. iCloud backup.	1. Paid ($2.92/month, billed annually). 2. Limited Free version: Provides access to 1 journal with 1 photo entry. 3. No access to video and audio recording.	1. website to access the data.
4	Budgeting	Mint	1. Users can keep track of their income and expenses.	1. Missing debt tracking function. 2a. The user wants an app that can calculate the monthly payment based on their current APR and desired debt payoff timeline. For example, at a 21.99% APR, with a monthly payment of $250, the debt will be	1. Have debt tracking functionality.

				paid off in 1 year and 2 months. 2b. Or determine how long it will take to get out of debt based on their monthly payment amount. For example, if the user wants to pay off their debt in 1 year with a 21.99% APR, they will need to make a monthly payment of $260.
